Considerations when applying for the program and planning activity operations

- Please note that the program does not support the following activities:

- Gatherings and events that simply focus on cultural life, hobbies, and socialization.
 - ※ Meal get-togethers for book clubs, internal fan club events, etc.
- Events and gatherings for political, religious, commercial purposes or to promote a specific person or organization.
 - ※ Profitable paid events that charge admission fees or participation fees are not eligible for support. However, if a small amount of the participation fee is received and reinvested in the event, it can proceed with prior approval.
- Other individual community activities not relevant to the event or gathering for which you are applying for funding.

- Submit an application for the support budget in the local currency corresponding to the standard KRW, taking local exchange rate variations into account.

※ It is scheduled to be provided in the final local currency, but a partial reduction may occur if the exchange rate fluctuates significantly above the usual amount in KRW at the time of transmission. Additionally, when the result is reported, it is resolved using the amount of local currency granted.

- The support budget cannot be used to compensate community representatives and individual members for activity expenditures such as honorariums and labor costs, etc.

- While the content of activities can be freely planned, it is critical to establish

specific goals and plans that can be feasible in light of the community's conditions, strengths and capabilities, the demand for Hallyu in the region, and other relevant circumstances. It is important to develop a plan in which the community can take the lead and actively participate.

Screening Procedures & Criteria

- **Screening Procedures:** Selection is made based on evaluating the application form and relevant data according to evaluation criteria
 - ※ Evaluation Committee: To be composed of internal and external judges of the KOFICE (within 5 people)
 - ※ The Best Community in 2022 will be given priority consideration for continued support if they reapply. However, they will be subject to a separate eligibility review before finalizing their support.
